

86+/- acres in Chambers County, Alabama

This awesome recreational property is 86+/- acres with frontage on The Tallapoosa River and High Pine creek in Abanda.

This property features fertile river bottoms, River frontage, mature timber, easy access, and excellent hunting. The open field on this property would make great hay or row crop land as well as prime food plot and field for hunting. Deer and turkey inhabit this place in abundance.

The frontage along the Tallapoosa river is a 2 acre lot that is connected to the larger acreage and has legal access, a good driveway, and power available. It would make an ideal spot for a small River cabin. The property can also be bought as only 84 acres without the frontage on the river.

This property is shown by appointment only. Please contact a listing agent for questions or to schedule a viewing.

Water/Riverfront · \$494,900
