

3+/- acres in Montgomery County, Alabama

3+/- Acres, fully wooded, remote country living, no restrictions, minutes from town. The owners were planning to build here, so they put in a clay and gravel driveway leading to the back of the property, with two culverts. They also paid Pintlala Water to install a meter and 3 cut off valves along with 650+/- ft of water line. Unfortunately, things didn't work out for them to build, so it is now available for you to **pursue your own dream of living on a wooded lot in the country.** This is in a **quiet area** between Pintlala and Fleta and is a little over 20 minutes to Montgomery, 16 min to Ramer and 18 min to Highland Home. There are **beautiful, mature trees** on the place and **multiple sites to put a home.** Please give me a call to view. Scott Mills
