

17+/- acres in Elmore County, Alabama

Over the last couple of years, it seems everyone is wanting to **move to the country, work from home** and **have some land** on which to **hunt or hike** or just **enjoy the view**. This 17+/- acre with a homesite will be perfect to do all the above. There is a **beautiful homesite** on the place that **overlooks a creek**. It has **just been mulched and ready to build**. There are **mature trees** on the homesite as well as on the rest of the acreage. There is alot of **deer sign** on the place, so hunting is definitely an option. Please call me to see this place soon. Scott Mills 334-300-6663

The area in checkered red and white has been mulched for building a home. The yellow is the driveway to the property.

Acreage with Homesite • \$129,900
